

I listen to AIR 1 in Las Vegas, NV through a local FM translator. AIR 1 is literally the only station I listen to. This is one of a few positive, family oriented Christian radio stations on the air here in Las Vegas. Unlike the others, this station is especially attractive to our youth because of the music it plays. Please do not make changes in broadcasting service which would interfere with AIR 1 transmissions in Las Vegas or anywhere else in the country. There are hundreds of thousands of people who listen to this station throughout the country who are not able to obtain the same type of Christian broadcasting anywhere else.

Sincerely,  
Cindy Spence
